SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name: Carbon dioxide (solid)
SDS no: SDS-018S-CLP
Chemical description: Carbon dioxide (solid)
CAS No: 124-38-9
EC no: 204-696-9
EC index no: ---
Registration-No.: Listed in Annex IV / V REACH, exempted from registration.
Chemical formula: CO2

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Industrial and professional. Perform risk assessment prior to use. Cooling (Food additive E290). Blast cleaning. Metal cooling. Contact supplier for more information on uses.

1.3. Details of the supplier of the safety data sheet

Company identification: Air Liquide UK Ltd.
Station Road, Coleshill B46 1JY Birmingham United Kingdom
01675 462424
genenq.aluk@airliquide.com

1.4. Emergency telephone number

Emergency telephone number: 01675 462695

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]
Not regulated.

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

2.3. Other hazards

Asphyxiant in high concentrations.
Refrigerated solidified gas. Contact with product may cause cold burns or frostbite.

SECTION 3: Composition/information on ingredients

3.1. Substance
**Name** | **Product identifier** | **%** | **Classification according to Regulation (EC) No. 1272/2008 [CLP]**  
--- | --- | --- | ---  
Carbon dioxide (solid) | (CAS No) 124-38-9  
(EC no) 204-696-9  
(EC index no) ---  
(Registration No.) ^1 | 100 | Not classified  

*Contains no other components or impurities which will influence the classification of the product.  
*1: Listed in Annex IV / V REACH, exempted from registration.  
*2: Registration deadline not expired.  
*3: Registration not required: Substance manufactured or imported < 1t/y.*  

**3.2. Mixture**  
: Not applicable  

## SECTION 4: First aid measures  

### 4.1. Description of first aid measures  
- Inhilation  
  : Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.  
- Skin contact  
  : In case of frostbite spray with water for at least 15 minutes. Apply a sterile dressing. Obtain medical assistance.  
- Eye contact  
  : Adverse effects not expected from this product.  
- Ingestion  
  : Get immediate medical attention.  

### 4.2. Most important symptoms and effects, both acute and delayed  
: In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. Low concentrations of CO2 cause increased respiration and headache.  

### 4.3. Indication of any immediate medical attention and special treatment needed  
: None.  

## SECTION 5: Firefighting measures  

### 5.1. Extinguishing media  
- Suitable extinguishing media  
  : Water spray or fog.  
- Unsuitable extinguishing media  
  : Do not use water jet to extinguish.  

### 5.2. Special hazards arising from the substance or mixture  
- Specific hazards  
  : None.  
- Hazardous combustion products  
  : None.  

### 5.3. Advice for firefighters  
- Specific methods  
  : Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.  
  : Use water spray or fog to knock down fire fumes if possible.
Special protective equipment for fire fighters: Use self-contained breathing apparatus.

- Standard protective clothing and equipment (Self Contained Breathing Apparatus) for firefighters.
- Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures:

- Evacuate area.
- Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.
- Use protective clothing.
- Ensure adequate air ventilation.
- Act in accordance with local emergency plan.
- Stay upwind.

6.2. Environmental precautions:

- Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous.

6.3. Methods and material for containment and cleaning up:

- Ventilate area.

6.4. Reference to other sections:

- See also sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling:

- Safe use of the product: Do not breathe gas.
- The substance must be handled in accordance with good industrial hygiene and safety procedures.
- Refer to supplier's container handling instructions.
- Do not smoke while handling product.
- Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.

7.2. Conditions for safe storage, including any incompatibilities:

- Observe all regulations and local requirements regarding storage of containers.
- Keep container below 50°C in a well ventilated place.

7.3. Specific end use(s):

- None.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

</table>
8.2. Exposure controls

8.2.1. Appropriate engineering controls

- Provide adequate general and local exhaust ventilation.
- Ensure exposure is below occupational exposure limits (where available).
- Oxygen detectors should be used when asphyxiating gases may be released.
- Consider work permit system e.g. for maintenance activities.

8.2.2. Individual protection measures, e.g. personal protective equipment

- A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered:
- PPE compliant to the recommended EN/ISO standards should be selected.

- Eye/face protection
  - Wear safety glasses with side shields.
  - Standard EN 166 - Personal eye-protection.

- Skin protection
  - Hand protection
    - Wear working gloves when handling gas containers.
    - Standard EN 388 - Protective gloves against mechanical risk.
  - Other
    - Wear safety shoes while handling containers.
    - Standard EN ISO 20345 - Personal protective equipment - Safety footwear.

- Respiratory protection
  - Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres.
  - Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

- Thermal hazards
  - Wear cold insulating gloves.
  - Standard EN 511 - Cold insulating gloves.

8.2.3. Environmental exposure controls

- None necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

**Appearance**

- Physical state at 20°C / 101.3kPa: Solid
- Colour: White.

**Odour**

- Odour: No odour warning properties.
- Odour threshold: Odour threshold is subjective and inadequate to warn of overexposure.

**pH**

- Not applicable.

**Melting point / Freezing point**

- -78.5 °C
Carbon dioxide (solid)

Boiling point: -56.6 °C (s)
Flash point: Not applicable for gases and gas mixtures.
Evaporation rate: Not applicable for gases and gas mixtures.
Flammability (solid, gas): Non flammable.
Explosive limits: Non flammable.
Vapour pressure [20°C]: 57.3 bar(a)
Vapour pressure [50°C]: Not applicable.
Relative density, liquid (water=1): 1.03
Relative density, gas (air=1): 1.52
Water solubility: 2000 mg/l Completely soluble.
Partition coefficient n-octanol/water (Log Kow): 0.83
Auto-ignition temperature: Not applicable.
Viscosity: Not applicable.
Explosive properties: Not applicable.
Oxidising properties: None.

9.2. Other information
Physical state: Refrigerated solidified gas.
Molar mass: 44 g/mol
Critical temperature [°C]: 31.06 °C
Other data: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.

SECTION 10: Stability and reactivity

10.1. Reactivity
: None.
10.2. Chemical stability
: Stable under normal conditions.
10.3. Possibility of hazardous reactions
: Stable under normal conditions.
10.4. Conditions to avoid
: None.
10.5. Incompatible materials
: None under recommended storage and handling conditions (see section 7).
10.6. Hazardous decomposition products
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity
: In high concentrations cause rapid circulatory insufficiency. Symptoms are headache, nausea and vomiting, which may lead to unconsciousness.
Unlike simple asphyxiants, carbon dioxide has the ability to cause death even when normal oxygen levels (20-21%) are maintained. 5% CO2 has been found to act synergistically to increase the toxicity of certain other gases (CO, NO2). CO2 has been shown to enhance the production of carboxy- or met-hemoglobin by these gases possibly due to carbon dioxide’s stimulatory effects on the respiratory and circulatory systems.
Carbon dioxide (solid)

SDS Ref.: SDS-018S-CLP

12.1. Toxicity

Assessment: No ecological damage caused by this product.

EC50 48h - Daphnia magna [mg/l]: No data available.
EC50 72h - Algae [mg/l]: No data available.
LC50 96 h - Fish [mg/l]: No data available.

12.2. Persistence and degradability

Assessment: No ecological damage caused by this product.

12.3. Bioaccumulative potential

Assessment: No ecological damage caused by this product.

12.4. Mobility in soil

Assessment: No ecological damage caused by this product.

12.5. Results of PBT and vPvB assessment

Assessment: Not classified as PBT or vPvB.

12.6. Other adverse effects

Other adverse effects: Can cause frost damage to vegetation.
Effect on ozone layer: None.
Global warming potential [CO2=1]: 1
Effect on the global warming: When discharged in large quantities may contribute to the greenhouse effect.

13.1. Waste treatment methods

Consult supplier for specific recommendations.
Discharge to atmosphere in large quantities should be avoided.
Do not discharge into any place where its accumulation could be dangerous.

List of hazardous waste codes (from Commission Decision 2001/118/EC): 16 05 05: Gases in pressure containers other than those mentioned in 16 05 04.

13.2. Additional information

None.
SECTION 14: Transport information

14.1. UN number
UN-No.: 1845

14.2. UN proper shipping name

Transport by road/rail (ADR/RID): Carbon dioxide, solid (Dry ice)
Transport by air (ICAO-TI / IATA-DGR): Carbon dioxide, solid
Transport by sea (IMDG): CARBON DIOXIDE, SOLID (DRY ICE)

14.3. Transport hazard class(es)

Transport by road/rail (ADR/RID)
Class: 9
Classification code: M11

Transport by air (ICAO-TI / IATA-DGR)
Class / Div. (Sub. risk(s)): 9

Transport by sea (IMDG)
Class / Div. (Sub. risk(s)): 9

Emergency Schedule (EmS) - Fire: F-C
Emergency Schedule (EmS) - Spillage: S-V

14.4. Packing group

Transport by road/rail (ADR/RID): Not applicable
Transport by air (ICAO-TI / IATA-DGR): Not applicable
Transport by sea (IMDG): Not applicable

14.5. Environmental hazards

Transport by road/rail (ADR/RID): None.
Transport by air (ICAO-TI / IATA-DGR): None.
Transport by sea (IMDG): None.

14.6. Special precautions for user

Packing Instruction(s)
Transport by air (ICAO-TI / IATA-DGR)
Passenger and Cargo Aircraft: 954.
Cargo Aircraft only: 954.
Transport by sea (IMDG): P003

Special transport precautions: Avoid transport on vehicles where the load space is not separated from the driver's compartment.
Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.
Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code
Not applicable.
SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU-Regulations
Restrictions on use : None.
Seveso directive 96/82/EC : Not covered.

National regulations
National legislation : Ensure all national/local regulations are observed.
Water hazard class (WGK) : nwg - Non-hazardous to water
Kenn-Nr. : 256

15.2. Chemical safety assessment
A CSA does not need to be carried out for this product.

SECTION 16: Other information

Training advice : The hazard of asphyxiation is often overlooked and must be stressed during operator training.
Further information : This Safety Data Sheet has been established in accordance with the applicable European Union legislation.

DISCLAIMER OF LIABILITY
Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out.
Details given in this document are believed to be correct at the time of going to press.
Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
